

# Up-Down Pendant Light

BEN —  
TOVIM  
DESIGN

Electroplated copper shade  
Obsidian volcanic glass counter weight  
RRP: \$1530

---

Electroplated brass shade  
Solid brass counter weight  
RRP: \$1390

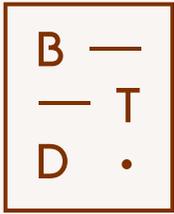

Powder coated black shade  
Carrara marble counter weight  
RRP: \$1405

### Up-Down Pendant Light

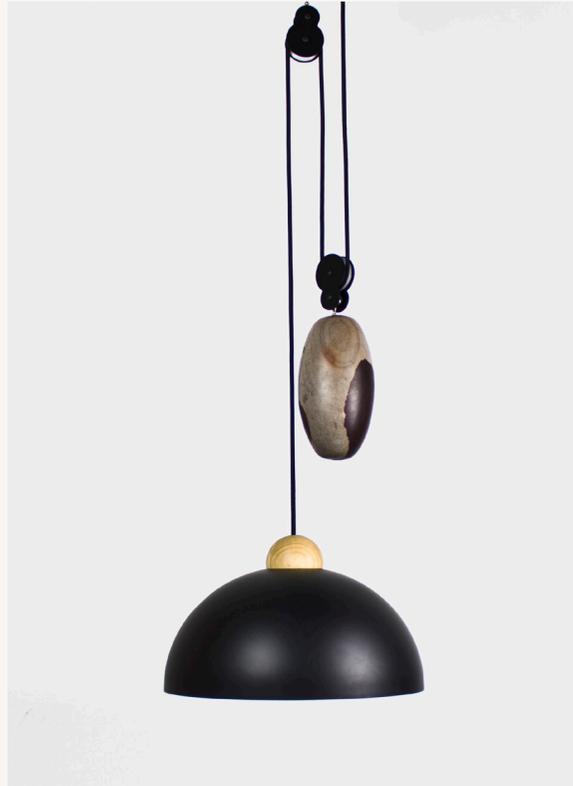

Up-Down Light is a contemporary twist on the classic industrial age height adjustable pendant light. A range of striking natural materials contrast with simple geometric forms to create a light that mixes functionality with a bold design statement.

*\*4-6 week lead time on delivery  
\*Light globes not included, can be ordered through

### Obsidian volcanic glass counter weight

Obsidian is a volcanic glass that is formed from cooled lava. Each piece will be individual and unique.

Sourced from Bailey Ridge, Utah, USA.

### Carara marble counter weight

Solid carrara marble sourced from Italy, and turned by craftsmen in Melbourne, Australia.

### Solid Brass counter weight

Solid brass counter weight is hand polished with a fine brush finish. A clear lacquer coat is added to reduce tarnishing.

### Shiva Lingam counter weight

Shiva Lingam stones only come from one place in the world, the Narmada River in Western India. The stones are collected once a year and are hand polished to give their unique shape.

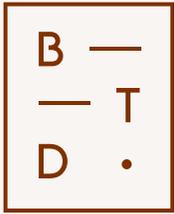

### Blackened shiva Lingam counter weight

Shiva Lingam stone, blackened with a uniquely formulated black ink by hand in the Ben-Tovim Design studio.

### Rough Diamond Globe

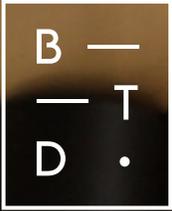

Up-Down Light can easily be adjusted within a range of heights between 900mm to 1500mm. Custom chord lengths are available if shorter or taller heights are required.

Standard e27 Lamp Holder  
Black fabric electrical flex

### Custom options:

Custom colours and alternative counter weight materials can be requested. Ben-Tovim design is always happy to work with designers to create the perfect custom light for a specific project.
